The ultimate and next generation Buffalo

Colour can be a top priority when choosing turf – and **Prestige®** the next generation Buffalo is the ultimate choice for lovers of dark green lawn. With its amazing winter colour and shade tolerance, **Prestige®** delivers year-round.

Prestige® has high performance, fast stolon/runner growth resulting in solid wear tolerance and a rapid recovery rate. **Prestige®** is also low maintenance with less thatch and able to out-compete weeds.

For sun, shade and wear tolerance, **Prestige® Buffalo** turf is a standout lawn.

With its deep root system, **Prestige®** is an efficient water user and drought tolerant.

Maintenance

- ✓ Cut to 3.5cm-4.5cm in sun, or 5cm-6cm in shade
- ✓ Mow every 7-10 days in warmer months, and every 3-6 weeks in colder months
- ✓ Fertiliser is recommended twice a year: once in early April and once in September

Prestige® Buffalo is drought tolerant **once established** – but, like all plants, needs water. Requirements will vary depending on environmental factors. Be aware of a drying climate and water your lawn accordingly.

Remember, infrequent deep watering of your lawn promotes a healthy lawn and a strong deep-rooted system. Watering time is best in the early morning.

Shade tolerance	High
Drought tolerance	Medium
Maintenance	Low
Wear tolerance	High
Winter colour	8/10*
Cold tolerance	Very high
Best planting time	Anytime
Where it works best	QLD, NSW, VIC, SA, WA
